The "Song of General Kim Il Sung" and revolutionary songs were powerfully ringing out and shouts "Long live Comrade Kim Il Sung, the great Leader!" and "Long live the Workers' Party of Korea!" shook the azure sky above the capital.

The broad avenues leading to the square were flooded with militant columns of working people, youths and students, armed Red Worker-Peasant Militiamen and Red Young Guards carrying graphs and posters showing the proud successes made in the struggle for the fulfilment of the resolutions of the Fourth Party Congress and Conference of the Party under the wise leadership of Comrade Kim Il Sung, the great Leader, and the great programmatic tasks newly put forth by the Leader for achieving the complete victory of socialism and accelerating the final victory of our revolution.

The Malian paper **L'Essor** dealt with the contents of the report. Featuring the Fifth WPK Congress, the paper wrote:

The Fifth Congress of the Workers' Party of Korea will sum up all the achievements scored in the spheres of politics, economy, culture and external activities by thoroughly embodying the *Juche* idea which is run through with independence in politics, self-sustenance in economy and self-defence in national defence and will develop the Korean revolution onto a new stage.

The Singapore paper **Nanyang Siang Pao**, reporting about the Fifth WPK Congress, printed the summary of the report of Comrade Kim Il Sung.

Giving the résumé of the report, the paper pointed out:

Premier Kim Il Sung is the peerless patriot, ever-victorious iron-willed brilliant commander and one of the outstanding leaders of the international communist and working-class movements who enjoys the absolute support of the peoples the world over.

The UAR paper **Al Akhbar, Radio People's Republic of the Congo, Radio Guinea**, the Tanzanian paper **Nationalist**, the Burmese paper **Hanthawaddy** and **Radio Burma** and the bulletin of the Burmese News Agency and other papers, radio and news agencies of many countries also gave wide publicity to the Fifth WPK Congress.

The historic report of Marshal Kim Il Sung gives boundless joy to public figures, workers, youth and students and social scientists in Japan who know well the great *Juche* idea and revolutionary theories of Marshal Kim Il Sung through the immortal works of the brilliant Leader of revolution Comrade Kim Il Sung and his glorious biography "Biography of Kim Il Sung" and strive hard to learn them.

They attentively listened to the historic report of Marshal Kim Il Sung over the radio when it was broadcast in Japanese by **Radio Pyongyang**, and had gatherings in various places to listen to the tape-recorded report.

As soon as the full text of the historic report of Marshal Kim Il Sung was published in Japanese by the **Korean News Service** and **Korean News**, they got it and are having study sessions in various places to make a deep study of the great *Juche* idea and revolutionary theories of Marshal Kim Il Sung, the brilliant Leader of revolution.

On the evening of November 4, functionaries of the Itabashi Ward Federation of Trade Unions in the Tokyo Metropolis had a "gathering for listening to tape-recorded historic report of Marshal Kim Il Sung" in the office of the federation.

A leading trade unionist, speaking at the gathering, said:

The report of Premier Kim Il Sung is a great one which is very dynamic and full of confidence.

I have listened to speeches and studied works of Premier Kim Il Sung for a few years now and each time I have been deeply impressed and moved by the sagacity of his leadership.

The report of Premier Kim Il Sung to the Fifth Congress of the Workers' Party of Korea makes us feel deeper reverence for him. Listening to the historic report of Premier Kim Il Sung, I have become more deeply convinced that he is the most distinguised Leader in the world and a great revolutionary.

It took Japan and other countries over a hundred years or a few centuries to become industrial states. But Korea has turned into a powerful socialist industrial state in a very short period of over 10 years. What a wonder!

This is a miracle indeed!

This owes entirely to the outstanding leadership of Premier Kim Il Sung.

We marvel at his greatness and superb art of leadership in arming the entire people with the unitary ideology of the Party, the *Juche* idea, uniting and rallying them close around the Party and rousing all of them to the socialist revolution and construction and thus leading this great work to a victory.

The report of Premier Kim Il Sung will also greatly inspire the democratic forces of Japan to their unity and development.

I will learn the great *Juche* idea of Premier Kim Il Sung by making a deep study of this report with a larger number of workers.

A student of the law faculty of Aichi University in Nagoya said:

A portrait of Premier Kim Il Sung is respectfully hung on a wall of my room. Because Premier Kim Il Sung is one of the outstanding leaders of the world revolutionary movement who enjoys the unbounded respect and reverence of the Korean people and the peoples of the world.

The report of Premier Kim Il Sung indicates a bright path to the accelerated development of the Korean revolution and the world revolution.

I will deeply study this report of Premier Kim Il Sung, together with his other works.

A "gathering for listening to the tape-recorded historic report of Premier Kim Il Sung to the Fifth Congress of the Workers' Party of Korea" was also held at the Warabi branch, Saitama Prefecture, of the Japan-Korea Association.

Chilean Government Decides to Withdraw from "UNCURK"

Jose Pinera, Chilean permanent delegate to the United Nations officially announced that the Chilean government decided to withdraw from the "United Nations Commission for the Unification and Rehabilitation of Korea," a tool of aggression concocted by the U.S. imperialists and a U.S. imperialists' shield for covering up their forcible occupation of South Korea, according to a November 17 report from New York.

The U.S. imperialists, using this tool of aggression, have not only turned South Korea into their complete colony and a living hell where starvation and poverty, terror and murder prevail but are making a desperate attempt to invade the whole of Korea and the rest of Asia.

The recent step taken by the Chilean government is a serious blow to the U.S. imperialists who keep occupying South Korea, hampering the unification of Korea.

Under the Uplifted Banner of Juche Idea Korean People Advance Dynamically Toward Fresh Victory

The historic Fifth Congress of the Workers' Party of Korea held under the grandiose circumstances where the whole country was astir with ever-mounting revolutionary mettle and creative enthusiasm, closed on November 13, after fulfilling its work successfully.

Amid the fervent congratulations and profound attention from the whole Party and the entire people, and amid warm felicitations from a large number of fraternal parties and foreign friends, the Fifth Party Congress creditably carried out its sacred historic task undertaken before our people and our age, and thereby made a tremendous contribution to victory for the Korean revolution and the cause of socialism and communism and wrote a brilliant page in the history of the communist movement in our country.

The report on the work of the Party Central Committee to the Party Congress delivered by Comrade Kim Il Sung, the great Leader of our Party and the 40 million Korean people and one of the outstanding leaders of the international communist and working-class movements, is a programmatic document which further developed and enriched the treasure-house of Marxism-Leninism, a document which gives, on the basis of the great *Juche* idea, perfect answers to various questions of principle newly raised by our era, the era of grandiose struggle, and by the current development of the revolution, the questions awaiting the urgent solution, and in which are crystallized the brilliant revolutionary ideas and strategy and tactics the judiciousness of which has been confirmed through our revolution and construction.

The Congress appraised in unison this historic report as a militant programme for the nation-wide victory of the Korean revolution and fresh victory of the cause of socialism and communism, as a historic document that is to make a distinguished contribution to promoting the victory of the international revolutionary cause for freedom, independence and social progress and as a classical Marxist-Leninist document of immortal, monumental significance. The Congress warmly welcomed the report and gave it full support and approval.

And the Congress adopted with unanimous approval the resolutions "On the Review of the Work of the Central Committee of the Workers' Party of Korea" and "On the Six-Year (1971-1976) Plan for the Development of the National Economy of the Democratic People's Republic of Korea" and elected the new central leading bodies of the Party.

Particularly, the First Plenum of the Fifth Party Central Committee, reflecting the unanimous will of the whole Party and the entire people, elected Comrade Kim Il Sung, the great Leader of our Party and the 40 million Korean people, as General Secretary of the Party Central Commitee.

The election of the great Leader of revolution Comrade Kim Il Sung as General Secretary of the Party Central Committee is a clear expression of the greatest respect for and absolute trust in the Leader by the entire Party members and people, who entrust their own destinies and future of the revolution entirely to him; it is a manifestation of the iron-strong will and conviction of those who are ready to fight on staunchly for the final victory of the revolutionary cause, upholding the guidance of the great Leader and following forever the glorious Party led by him.

Today the entire Party members and people regard it as unbounded happiness, as the greatest pride, to have the great Leader Comrade Kim Il Sung as General Secretary of the Party Central Committee, and offer the highest honour to him.

As mentioned by the respected and beloved Leader Comrade Kim Il Sung, the Fifth Party Congress proved itself before the whole world to be the congress of unity, the congress of victory and the congress of yet a greater victory to come in the future.

The Fifth Party Congress was precisely the congress of the great cohesion, which clearly demonstrated the firm, monolithic and indestructible unity, organizational and ideological, of the whole Party and the unshakable politico-ideological unity of the entire people that have been attained on the basis of the great revolutionary idea, the *Juche* idea, of Comrade Kim Il Sung, the respected and beloved Leader of our Party and the 40 million Korean people, and with him as the sole centre.

In his closing address the respected and beloved Leader Comrade Kim Il Sung said:

"The *Juche* idea of the Party, Marxist-Leninist ideology, is pervading the whole Party and the unity and cohesion of our Party ranks have been further cemented on a new basis, and the entire people are rallied closer around the Party than ever before."

The whole course of the proceeding of the Party Congress was seething with the enthusiasm and fighting will to remain boundlessly loyal to the respected and beloved Leader Comrade Kim Il Sung, resolutely defend him with our lives politically and ideologically and advocate and carry his orders and instructions into effect unconditionally, and demonstrated to the full the iron-strong conviction and will to safeguard in every possible way the high prestige and dignity of the Leader, the supreme brain and heart of our Party and revolution, braving whatever heavy storm and stress, defend as the apple of our eyes the unity and cohesion of the Party attained with him as the centre and fight on vigorously along the single road to the victory of the revolution indicated by him.

The perfect and unqualified unity of the whole Party in ideology, will and action, the unity based on the unitary ideological system of *Juche*, represents the most valuable gain that has ever been made in the communist movement of Korea and a decisive guarantee for all our victories.

In his closing address the great Leader Comrade Kim Il Sung pointed out:

"The Fifth Congress of our Party may be called the congress of the great victory in industrialization, the congress of an overall victory of the *Juche* idea in the history of our Party and our country."

The Fifth Congress of the Workers' Party of Korea is the congress of the great victory, which brilliantly demonstrated historic victories that were won in the revolution and construction as a result of the full-scale embodiment of the great *Juche* idea initiated by Comrade Kim Il Sung, the genius Leader of the revolution.

The Party Congress confirmed with unanimity that the *Juche* idea has become the immovable guiding idea of our Party, and declared to the whole world that our country, liquidating the backwardness and poverty, the age-old left-over, in a historically short period of time, has been converted into a developed socialist industrial state as a result of the splendid implementation of the revolutionary line of independence, self-sustenance and self-defence in all domains of the revolution and construction.

The overall victory of the *Juche* idea constitutes the glorious event that holds the most shining place in the long history of the Korean people and in the nearly-half-a-century-long history of the communist movement of our country.

The Fifth Congress of the Workers' Party of Korea is the historic congress that marks a new stage in the development of our revolution. It is because the Congress unrolled before the whole Party and the entire people the brilliant blueprint for the building of a richer, stronger socialist country and showed the clear-cut way of expediting the complete victory of socialism and the unification of the country.

The Fifth Party Congress is also a great inspiring event that further strengthens the international solidarity of our revolution and gives a greater impetus to the anti-imperialist, anti-U.S. imperialist revolutionary struggle in Asia and other parts of the world.

The entire Party members and people now give themselves up to an endless tumult of joy and emotion at the news that the Party Congress has concluded its work victoriously, and are filled with the fiery fighting will and unflinching determination to carry on a more vigorous struggle for fresh victory of the revolutionary cause along the way pointed by the great Leader Comrade Kim Il Sung.

At the Party Congress Comrade Kim Il Sung, the genius Leader of the revolution, set forth the great militant tasks to further push ahead forcefully with the revolution and construction, holding aloft the great revolutionary banner of the *Juche* idea, so as to attain the complete victory of socialism in the northern half of the Republic and hasten the unification of the country and the nation-wide victory of the Korean revolution.

In his report to the Party Congress the respected and beloved Leader Comrade Kim Il Sung taught:

"In order to strengthen the socialist system and attain the complete victory of socialism, it is necessary to carry on the powerful struggle to occupy the material and ideological fortresses, the two fortresses that must be seized without fail on the way to communism.

"We must develop the productive forces continuously by carrying the technical revolution onto a higher stage, bring about a further development and efflorescence of socialist national culture by speeding up cultural construction, and vigorously push ahead with the revolutionization and working-classization of the whole society by giving priority to the ideological revolution."

This new programme put foward by the respected and beloved Leader is the historic programme designed to convert our country into a highly developed socialist state that has a more powerful economic might and military strength, make our revolutionary forces more impregnable and provide our people with a more affluent and cultured life.

And this programme is a great one that is to vigorously encourage the South Korean people in their revolutionary struggle and bring a decisive phase in the attainment of independent national unification.

Unfolding the brilliant prospects for the socialist economic construction in his report to the Party Congress, the respected and beloved Leader Comrade Kim Il Sung pointed out as follows:

"The basic task of the Six-Year Plan in the field of socialist economic construction is to further cement the material and technical foundations of socialism and free the working people from arduous labour in all fields of the national economy, by consolidating and carrying forward the successes gained in industrialization and advancing the technical revolution onto a new, higher plane."

When the magnificent Six-Year Plan is fulfilled, gross industrial output of our country will increase 2.2 times, which will inevitably lead to the remarkable strengthening of the might of industry and thus our country will rank among the most advanced countries in the world in per capita output of major industrial products.

In the domain of agriculture the two-crop area will be expanded, the dry-field irrigation introduced more extensively and mechanization and chemicalization effected on a full scale. This will make the agricultural production highly intensive and lead to its sharp growth.

The respected and beloved Leader Comrade Kim Il Sung set forth the three major tasks of the technical revolution which are aimed to narrow down the distinctions between heavy and light labour and agricultural and industrial labour to a considerable extent and free women from the heavy burdens of household chores so that all working people may enjoy a more cultured and affluent life while doing their work easily.

During the Six-Year Plan period the gap between the workers and the peasants in living standards and the differences between the urban and rural inhabitants in living conditions will be further narrowed down, modern dwellings for a million and hundreds of thousands of families built, wages raised and prices of goods cut as a whole, water and bus service provided in even mountainous villages, the clinics in rural *ri* developed into hospitals and children's wards set up in all *ri* and the whole country covered with the network of television, with the result that the life of the people will change beyond recognition.

The respected and beloved Leader Comrade Kim Il Sung set forth as one of the important tasks for the complete victory of socialism to build socialist national culture through the active promotion of the cultural revolution.

In accordance with the line advanced by the Leader, the spearhead of the cultural revolution will be continuously directed against the cultural infiltration by imperialism, a vigorous struggle waged against restorationism, and the revolutionary, militant culture of the working class and the genuine popular literature and art developed in an all-round way.

The Six-Year Plan will witness the further development of education: a large army of more than a million technicians and specialists will be trained, the general technical and cultural levels of the working people further enhanced. And scientific research work will develop onto a higher plane.

The work of revolutionizing and working-classizing the whole society will be promoted continuously and vigorously with precedence given to the ideological revolution and, at the same time, the dictatorship of the proletariat strengthened to thoroughly isolate and suppress the hostile elements.

Comrade Kim Il Sung's thought and line of achieving the complete victory of socialism by vigorously pushing forward the technical, cultural and ideological revolutions, while unfolding a struggle to seize the material and ideological fortresses of communism, illumine brightly and graphically the path to and ways for building communist society, a classless society which mankind has but a rough and abstract notion for many years.

By vigorously advancing along the avenue to socialism and communism shown by the great Leader Comrade Kim Il Sung, our Party and people will successfully accomplish the historic cause of the working class and hasten the future of mankind.

It is the lofty historic task of winning the nation-wide victory of the Korean revolution to accelerate the socialist construction in the northern half of the Republic to the maximum and, at the same time, develop the revolutionary movement in South Korea and materialize the independent, peaceful unification of the fatherland.

It is the urgent task inevitably issuing from the obtaining situation of today for our Party and people to push forward preparations for war and strengthen further the country's defence power.

The U.S. imperialists, directing the spearhead of aggression against Asia, are feverishly instigating the Pak Jung Hi puppet clique to unleash a new war in Korea and actively carry forward the scheme to use the Japanese militarists as "shock troops" in an aggressive war against Korea.

In the face of the enemy's ever-intensified manoeuvres for war, we will thoroughly make preparations for war, politically, ideologically, militarily and materially so that we can stand ready fully to annihilate at a stroke the enemy at any time if he invades us.

Difficult and huge are the programmatic tasks the historic Fifth Congress of the Workers' Party of Korea set before the Korean people and still arduous is our struggle.

We, however, are under the seasoned and wise guidance of Comrade Kim Il Sung, the outstanding Marxist-Leninist of our times and the genius Leader of the revolution, and have the might, unbending revolutionary will and stamina of our people who, infinitely loyal to the Leader and united rock-firm around him, march ahead weathering out any storm and violent waves.

We have already built up the most superior socialist system and possess the firm foundations of an independent national economy and the rich experiences we have accumulated in the course of the Chollima movement during which any difficult task was carried out and miracles were wrought.

The entire Korean people, more closely rallied around Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, peerless patriot, national hero, ever-victorious iron-willed brilliant commander, great Marxist-Leninist and one of the outstanding leaders of the international communist and working-class movements, and holding aloft the revolutionary banner of his great *Juche* idea, will more vigorously march forward for the implementation of the historic tasks set forth by the Fifth Congress of the Workers' Party of Korea, for the achievement of the nation-wide victory of our revolution and towards a fresh victory of the cause of socialism and communism.

A fresh yet greater triumph and brighter morrow are in store for us who are advancing ahead under the guidance of the great Leader.

Comrades!

The Fifth Congress of the Workers' Party of Korea is an epoch-making event which marks a new milestone in the development of our Party and our revolution.

As the great Leader Comrade Kim Il Sung taught, the Fifth Congress of our Party will be called a congress of the great victory of industrialization, a congress of the overall victory of the *Juche* idea in the history of our Party and our country.

The Party Congress fully demonstrated the invincible militant might of our Party firmly rallied in one idea and one will around the respected and beloved Leader Comrade Kim Il Sung and the unshakable politico-ideological unity of the Party and the people.

Comrade Kim Il Sung, the great Leader, taught as follows:

"The *Juche* idea of the Party, Marxist-Leninist ideology, is pervading the whole Party and the unity and cohesion of our Party ranks have been further cemented on a new basis, and the entire people are rallied closer around the Party than ever before."

Today our Party has strengthened and developed into militant ranks who have the revolutionary idea, the *Juche* idea of the great Leader Comrade Kim Il Sung, as the unitary guiding principle, and are united and rallied steel-strong around the Leader and the whole society has been solidly built into a big Red family whose members repose boundless confidence in the Leader and the Party and advance vigorously along the one road indicated by the Leader.

The Fifth Congress of our Party also vividly demonstrated the tremendous victories and achievements made by our Party and our people in the revolutionary struggle and constructive work under the wise guidance of the Leader.

The great Leader Comrade Kim Il Sung declared to the whole world at the recent Party Congress that our country has been converted into a socialist industrial state as a result of the splendid fulfilment of the historical task of socialist industrialization.

The conversion into a socialist industrial state—this is a great event of historic significance in the struggle to accomplish the cause of socialism and communism in this land.

With a great change into a socialist industrial state, the firm material and technical foundations of socialism have been laid in our country, our revolutionary base has been fortified impregnably and a solid asset for the unification of the fatherland and its future prosperity provided.

The revolutionary line of carrying on economic construction and defence upbuilding in parallel has been carried through, with the result that we have come to possess a strong self-defence power capable of defending reliably the security of the fatherland and the gains of socialism against the encroachment of the enemy.

During the past period the revolutionary struggle of the South Korean people has gained further momentum, giving telling blows to the colonial rule of U.S. imperialism and an epoch-making advance has been made in the struggle for accelerating the unification of the fatherland and the nationwide victory of the revolution.

The international position of our Party and our country has been enhanced without precedent thanks to the brilliant achievements gained in the revolution and construction and the great contribution made to the advancement of the international communist movement and the world revolutionary movement under the wise leadership of Comrade Kim Il Sung, the great Leader of revolution.

All these victories and achievements made by our Party and people are the brilliant fruition of the great revolutionary ideas and wise leadership of Comrade Kim Il Sung, the outstanding Leader of revolution.

Comrade Kim Il Sung, the brilliant Leader of revolution, has created the great idea of *Juche*, put forward the most correct lines and policies at each period and each stage of the development of the revolution and skilfully organized and mobilized the whole Party and the entire people to their implementation.

It is entirely thanks to the outstanding and wise leadership of the great Leader Comrade Kim Il Sung that we could smash the insidious manoeuvrings of the internal and external enemies and achieve the great and shining successes of today, breaking through manifold difficulties and trials.

At this significant rally celebrating the historic Party Congress I would like to pay the highest honour and extend the best thanks to Comrade Kim Il Sung, the founder of our Party, the outstanding Leader and the respected and beloved Leader of our Party and the 40 million Korean people, who always leads our people to victory and glory, happiness and prosperity.

Comrades!

In his report on the work of the Party Central Committee to the Congress Comrade Kim Il Sung, the respected and beloved Leader, summed up the great victories and successes achieved by our Party and people through an arduous yet heroic struggle during the past period holding aloft the revolutionary banner of *Juche* and opened up a bright vista of our revolution and construction.

The historic report made by the great Leader Comrade Kim Il Sung at the Congress is a pre-eminent Marxist-Leninist document which crystallizes his genius ideas and theories on revolution and construction and the achievements and rich experiences gained through their embodiment and a programmatic guiding compass which sets forth a clear-cut target of struggle for accelerating the socialist construction in the northern half of the Republic and bringing earlier the nation-wide victory of the revolution.

In his report to the Congress the respected and beloved Leader Comrade Kim Il Sung illumined a new direction and target of struggle for our Party and our people and set forth the magnificent programme of the Six-Year Plan.

Comrade Kim Il Sung, the great Leader, taught as follows:

"We must develop the productive forces continuously by carrying the technical revolution onto a higher stage, bring about a further development and efflorescence of socialist national culture by speeding up cultural construction, and vigorously push ahead with the revolutionization and working-classization of the whole society by giving priority to the ideological revolution."

This task advanced by the Leader is a fighting programme for the acceleration of the complete victory of socialism and the nation-wide victory of our revolution.

When this new programme is translated into reality, the political, economic and military might of our Republic will increase beyond comparison, our people will lead a more joyful, abundant and civilized life and a new decisive phase will be opened up in realizing the independent unification of the fatherland.

The new militant tasks set forth by the Leader demand that the entire working people should not be self-complacent with victory and not submit to difficulties but continue to struggle more dynamically towards a new victory in a strained and mobilized posture.

The entire Party members and the working people must, first of all, firmly arm themselves with the great revolutionary idea, the *Juche* idea, of Comrade Kim Il Sung, the outstanding Leader of revolution, and become true revolutionary soldiers of the Leader, who think and act in the same way as the Leader does, defend the Leader with their lives and unconditionally carry through the teachings of the Leader and the Party policies to the end at any time and at any place.

We must make all the working people ardent revolutionaries and Communists and further step up the revolutionization and working-classization of the whole society by powerfully unfolding the ideological revolution.

The entire working people must fully display the revolutionary spirit of self-reliance and continue to dash forward dynamically at the "Kangson speed," a new Chollima speed, in order to fulfil ahead of schedule the Six-Year Plan set forth by the Leader.

Upholding the three major tasks of the technical revolution, we must extensively unroll the technical innovation movement to free the working people from hard and labour-consuming work and build and produce more, better and faster in all fields of the national economy.

While vigorously pushing ahead with the socialist economic construction, we must more firmly build up the defence power of the country.

The entire people must always maintain high revolutionary vigilance without being captivated with a pacifistic mood and have the militant vigor and indomitable revolutionary spirit to valiantly meet and fight the enemy if he dares to attack them.

By continuing to implement thoroughly the line of carrying on economic construction and defence upbuilding in parallel and the military line of the Party, we must consolidate rock-firm the all-people defence system with the People's Army as its core, convert the whole country completely into an impregnable bastion and make better preparations for war in all fields.

The entire people should not forget the fighting brothers in South Korea even a moment and must render active support and encouragement to their firm and valiant anti-U.S. imperialist, national salvation struggle.

Holding aloft the banner of Marxism-Leninism and proletarian internationalism and the banner of anti-imperialist, anti-U.S. imperialist struggle, we must strengthen the international solidarity with the revolutionary peoples of all countries and exert all our efforts for the development of the world revolution.

We should deal stronger collective blows at the aggression of U.S. imperialism by strengthening the anti-U.S. imperialist common front with the peoples of Asian countries making revolution, and bind the U.S. imperialists hand and foot and tear off their arms and legs and behead them in firm unity with the peoples of all revolutionary countries throughout the world.

Our Party and people will, in the future, too, as in the past, continue to fight staunchly against U.S. imperialism and Japanese militarism and for the victory of the cause of peace, democracy, national independence, socialism and communism in unity with the peoples of the socialist countries, in unity with the international working class, in unity with the peoples of Asia, Africa and Latin America and in unity with all the peace-loving peoples of the world.

The struggle of our people for bringing earlier the complete victory of socialism and the nation-wide victory of the revolution and for accelerating the victory of the world revolution is a just cause and our people marching forward under the leadership of the great Leader will always be crowned with victory and glory.

Let us all advance more vigorously towards the independent unification of the fatherland and the nation-wide victory of the revolution and for the victory of the cause of socialism and communism, rallied firmly around Comrade Kim Il Sung, the great Leader of our Party and the 40 million Korean people, peerless patriot, national hero, ever-victorious iron-willed brilliant commander and one of the outstanding leaders of the international communist and working-class movements.

Long live Comrade Kim Il Sung, the great Leader of our Party and the 40 million Korean people!

Long live the Workers' Party of Korea, the ever-victorious Marxist-Leninist Party!

(Continued from Page 1)

Comrade Kim Il Sung, the great Leader, founded the ever-victorious *Juche* idea and brightly lit the road ahead of the Korean revolution in the period of national tragedy when the communist movement and the national liberation struggle of our country, unable to find a correct road, were undergoing bitter trials repeatedly, and restored the fatherland and established the brilliant revolutionary traditions of our Party by personally organising and leading the heroic anti-Japanese armed struggle for 15 years and on the basis of the traditions, founded after the liberation the Workers' Party of Korea, the General Staff of the Korean revolution and organiser and inspirer of all the victories for our people, and has strengthened and developed our Party into a militant party capable of breaking through any storm and stress, frustrating all kinds of manoeuvres of the enemies at home and abroad, into an invincible revolutionary party the whole of which is united and rallied rock-firm around the Leader on the basis of the unitary ideological system of the Party and has the blood ties with the masses of the people.

He has also organised and led our Party and people to revolution and construction, illumining the road ahead of revolution with the great *Juche* idea. He thereby has built as firm as a rock the revolutionary base of the northern half of the Republic, defended with credit the freedom and independence of the fatherland from the U.S. imperialists' armed invasion and turned our country in a short span of time into a powerful socialist industrial state with solid foundations of an independent national economy, into a power with invincible self-defence potential where all-people defence system has been firmly established with the People's Army, a one-beats-a-hundred, modernized army of cadres, as the core and whose whole territory has been turned into a fortress, into a revolutionary country where all people study and *Juche* science and socialist national culture are in full bloom.

The square seethed with the feelings of infinite adoration of, trust in and ardent loyalty to Comrade Kim Il Sung, an outstanding Marxist-Leninist and the brilliant Leader of revolution, who firmly leads our people only along the one road of victory and glory, happiness and prosperity, with the boundless pride and self-confidence in living and fighting with him as the Leader and in being his revolutionary soldiers, and with the burning revolutionary enthusiasm and new fighting determination of our people to brilliantly accomplish to the end the programmatic tasks put forth by the great Leader at the Party Congress.

Amid the unceasing, resounding cheers of *manse*, working women presented a basket of fragrant flowers conveying the feeling of boundless adoration of the attendants of the rally and the entire people of our country to Comrade Kim Il Sung, the great Leader of our Party and the 40 million Korean people and benevolent father.

The platform was taken up by Comrades Kim Il, Pak Sung Chul, Choe Hyon, Kim Yong Ju, O Jin

Great Policies for Implementing the Line of the Anti-Japanese Armed Struggle

On the Occasion of the 39th Anniversary of the Myongwolgu Conference

Our people greet the 39th anniversary of the Myongwolgu Conference in the grand circumstances in which the whole country is in the grip of unbounded emotion and excitement at the historic report delivered by the respected and beloved Leader Comrade Kim Il Sung to the Fifth Congress of our glorious Party.

At the Myongwolgu Conference held in November, 1931 Comrade Kim Il Sung advanced the policy of organizing and unfolding the anti-Japanese armed struggle in the form of guerilla warfare and concrete measures for its implementation and the policy of strengthening the revolutionary solidarity with the people of the neighbouring country and of forming a joint anti-imperialist front with the anti-Japanese units, in the struggle against the common enemy, Japanese imperialism.

These policies put forth by Comrade Kim Il Sung rested on his scientific analysis of the situation prevailing at that time and correctly reflected the urgent demands for the development of the Korean revolution.

The revolutionary situation in our country was very complex and grim before and after the Myongwolgu Conference.

Japanese imperialism invaded Manchuria on September 18, 1931 at last.

Occupying Manchuria the Japanese imperialists intensified the fascist oppression of the Korean people on a full scale, suppressing the struggle of workers and peasants for national liberation, in order to turn Korea into a "solid rear" for Manchurian aggression.

Especially after the Kalun Conference held in the summer of 1930 the Korean revolution attained its new development and the preparations for the anti-Japanese armed struggle went ahead successfully along the *Juche* line on the revolution set forth by Comrade Kim Il Sung. Alarmed by this, the Japanese imperialist invaders set loose their aggressive army and police troops to storm, plunder and burn down all the villages of Koreans in East Manchuria.

At that time, the factionalists were engrossed in a schismatic strife, tearing the revolutionary ranks asunder.

Such a situation urgently demanded the organizing and unfolding of an armed struggle, a more active struggle to relieve our people from misery at an early date and win the independence of the fatherland.

At the very moment the great Leader of revolution Comrade Kim Il Sung had a scientific insight into the new situation created by Manchurian invasion by Japanese imperialism and into the actual conditions of the communist movement in our country and the prospects of its development and convened the historic Myongwolgu Conference to show more clearly the path of the Korean revolution.

At the conference Comrade Kim Il Sung taught that the anti-Japanese armed struggle should be organized and unfolded with a guerilla warfare by a standing revolutionary armed force as its basic form. This policy put forward by Comrade Kim Il Sung was quite a new and original one.

The policy formulated by Comrade Kim Il Sung was the most scientific *Juche* one which took into full consideration the specific conditions of our country and the balance of forces between the enemy and our side and the protractedness and arduousness of the anti-Japanese armed struggle.

The anti-Japanese armed struggle was an anti-imperialist national-liberation war and the sharpest revolutionary struggle which could not be ended in a few days in view of its aim, mission and objects. It was the most rigorous class struggle. Because its object was Japanese imperialism having huge military forces with up-to-date military-technical equipment and long experiences in aggressive war, and because, to fight it, everything needed had to be secured on the revolutionary principle of self-reliance under the condition where there was neither state rear nor support of the regular army.

As above-mentioned, the balance of forces between the enemy and our side and the specific conditions of the anti-Japanese armed struggle called for an armed struggle in the form of guerilla warfare.

Only when the anti-Japanese armed struggle was organized and waged in the form of guerilla warfare, it was possible to fight the armed struggle for a long time enjoying the active support and encouragement of the masses of the people and relying on advantageous natural-geographical conditions and to annihilate the enemy superior in number and technology with the small revolutionary armed forces.

Comrade Kim Il Sung taught that an anti-Japanese guerilla army, a standing revolutionary armed force, should be formed, first of all, to organize and unfold the anti-Japanese armed struggle in the form of guerilla warfare.

He instructed that the anti-Japanese guerilla army should be compact of advanced workers, peasants and patriotic-minded youths, with the members of the Korean Revolutionary Army and of the Young Communist League and the Anti-Imperialist Youth League tempered and tested in the long revolutionary struggle as its core, and that it should be a revolutionary armed force of the working class fighting for the national independence and social emancipation of the Korean people, a people's army having the bonds of kinship with the people and devoting itself to the struggle for the good of the people, and a proletarian internationalist revolutionary army fighting for the world revolution.

He said that to organize a guerilla army it was necessary to go deep into the midst of the revolutionary masses to perseveringly explain the need of the armed struggle and the mission and class nature of the guerilla army and that it was particularly imperative to secure arms.

Emphasizing the necessity of the armed struggle, Comrade Kim Il Sung said about the method of securing weapons for the guerilla army to the following effect:

—It is no easy task for us to take up arms. The situation obtaining today, however, compels us to take up arms....

The question will not be solved if we merely sit and lament or wail at the sight of the enemy's bestial atrocities.

We must rise and fight in arms. Where should we get arms from? We can buy them if we have money or can make them. But the shortest way is to capture the enemy's weapons. If everyone strains his wits, chooses a place and takes action fearlessly at the risk of life, he can get a weapon to arm himself....

This method of getting arms on our own through an arduous struggle was the only correct one under the conditions where the country had already been reduced to a colony of Japanese imperialism and there was neither power nor a national army and where none supplied us with arms.

At the conference Comrade Kim Il Sung taught that since the anti-Japanese armed struggle was to be waged in the form of guerilla warfare guerilla bases should be established for the anti-Japanese guerilla army to rely on.

Under the conditions in which the anti-Japanese guerilla army had to fight against Japanese imperialism armed to the teeth securing everything needed on its own as there was neither state rear nor support of the regular army, it, only when the guerilla bases were established, was possible to have a strategic base of military operations, rear base and a strategic base for the revolution, and lead to victory the anti-Japanese armed struggle which assumed a protracted and arduous nature. And only by establishing guerilla bases it was also possible to protect the revolutionary forces against the diabolical mediaeval atrocity of slaughter by Japanese imperialism and strengthen them and lay a firm mass basis of the armed struggle.

The guerilla base was of very great significance as a military strategic base for the anti-Japanese armed struggle and as a strategic base for the development of the Korean revolution as a whole.

Since the anti-Japanese armed struggle had to be organized and waged as the main form of struggle for the Korean revolution at that time, without the guerilla base it was impossible to organize and lead various forms of anti-Japanese struggle of the masses of the people along the right path and to inspire the people to victory. And only when such a base was established it was possible to successfully promote the work for implementing the line of founding the Korean Communist Party and the line of forming the united anti-Japanese national front, the lines advanced by Comrade Kim Il Sung.

As above-mentioned, the policy of establishing the guerilla base put forth by the Leader was the most scientific, revolutionary one. It aimed to accelerate powerfully the development of the Korean revolution as a whole by organizing, revolutionizing and mobilizing the masses of the people and thus building a strong bulwark of the revolution, believing in their might, under the circumstances where the armed struggle was to be organized and launched in the most difficult conditions.

On the basis of the full calculation of the specific circumstances, characteristics of the areas of military operations and natural-geographical conditions in organizing and unfolding the anti-Japanese armed struggle, Comrade Kim Il Sung taught that the area along the Duman-gang River was favourable for the establishment of the guerilla base.

At the conference Comrade Kim Il Sung said that the mass foundation should be built up firmly since the armed struggle was unfolded with guerilla warfare as its basic form.

The armed struggle which does not rely on the revolutionary masses can neither be victorious nor maintain the armed ranks for a long time.

Comrade Kim Il Sung emphasized that only when the Communists had the revolutionary mass viewpoint, established the ties of kinship with the people and firmly built up the internal revolutionary forces, it was possible to bring the anti-Japanese armed struggle to success and achieve the restoration of the fatherland by the efforts of the Korean people.

At the conference Comrade Kim Il Sung advanced an original policy of attaining a joint action with the Communists of the neighbouring country and forming an anti-imperialist joint front with the anti-Japanese units, a Chinese nationalist armed force, in the struggle against the common enemy, Japanese imperialism.

This policy was the wisest one based on a profound analysis of the correlations between the Korean and world revolutions and the significance of the reinforcement of the internal revolutionary forces and of their solidarity with the international revolutionary forces in the development of revolution.

Only when the international revolutionary forces further strengthened by winning over even the Chinese anti-Japanese units, it was possible to isolate the enemy to the maximum and thunder heavier and decisive blows upon him.

At that time the Chinese anti-Japanese units were hostile to the Korean Communists owing to the cunning national estrangement policy of Japanese imperialism and put great difficulties in the way of the Korean revolution. Hence, it was more urgently required to form an anti-imperialist joint front with them.

But, in the then conditions, making contact with them was a difficult job, which might cost one one's life.

Comrade Kim Il Sung had negotiations directly with the command of the anti-Japanese units at the risk of his life solely in the interests of the revolution, and patiently persuaded them who had been infected with obstinate anti-communist and national chauvinist ideas and perpetrating rude acts, and thus finally succeeded in unfolding a joint anti-Japanese struggle with them.

At the Myongwolgu Conference the great Leader of revolution Comrade Kim Il Sung put forth a series of important strategic policies to develop the Korean revolution onto a new, high stage, and thereby brought the Korean Communists to understand more clearly the orientation and ways for organizing and unfolding the anti-Japanese armed struggle and to complete more successfully the preparations for founding the anti-Japanese guerilla army and organizing and unfolding the armed struggle under his guidance.

The original strategic policies advanced by Comrade Kim Il Sung at the conference struck out the untrodden path in the national-liberation revolution in colonies, and thus further enriched the treasure-store of Marxism-Leninism.

Also mounting the platform were the members of the delegation of the Revolutionary Party for Reunification in South Korea headed by Comrade Li Jong Hyok and Comrade Choe Yong Gun, head of the congratulatory group of Koreans in Japan.

Seen on the either side of the platform were the Presidium Members of the Central Committee of the Fatherland Front, Department Directors of the Central Committee of the Workers' Party of Korea, Ministers of the Cabinet and other functionaries of Party and government organs and public organisations, generals of the Korean People's Army, responsible personages in the domains of science, education, public health, culture and art and delegates of provincial (or city under central authority) Party organisations who had attended the Fifth Congress of the Party.

In the guest stand were diplomatic representatives of various countries and foreign guests staying in our country.

The mass rally opened with the playing of the Patriotic Song.

Comrade Kim Il, Member of the Political Committee of the Central Committee of the Workers' Party of Korea and First Vice-Premier of the Cabinet, made a speech at the rally.

After the speech, hundreds of guns thundered out a salute, which beautifully decorated the sky above Pyongyang, the capital of revolution.

The mass rally was followed by a grand parade of 300,000 working people, school youth and children, members of the Red Worker-Peasant Militia and Red Young Guards in Pyongyang.

The rally powerfully demonstrated the invincible might of our whole Party and people united and rallied rock-firm as one around Comrade Kim Il Sung, the founder and Leader of our Party and great Leader of the revolution, and the overall victory of the *Juche* idea of our Party and showed the whole world the majestic appearance of our country which has been turned into a powerful socialist industrial state with solid foundations of an independent national economy, into an impregnable self-defence country capable of crushing any surprise attack of the imperialists and reliably defending the security of the fatherland and the gains of socialism, into a revolutionary country where all study and *Juche* science and technology and socialist national culture are in full bloom.

The mass rally clearly showed the unshakable determination and revolutionary stamina of our people to thoroughly arm themselves with the revolutionary ideas of Comrade Kim Il Sung, the great Leader, and achieve the complete victory of socialism and bring earlier the nation-wide victory of our revolution by powerfully advancing and brilliantly carrying out the militant programme put forth by the Leader at the Fifth Congress of the Party, holding aloft the revolutionary banner of the *Juche* idea of our Party, the banner of Marxism-Leninism, firmly rallied around the Leader.

Demonstration of Indestructible Might of Our People Rallied Closely around the Great Leader

In the presence of the respected and beloved Leader Comrade Kim Il Sung, 300,000 working people of Pyongyang held a mammoth demonstration on November 15 in Kim Il Sung Square in celebration of the Fifth Congress of the glorious Workers' Party of Korea.

The demonstration vividly showed that our entire working people are firmly united around Comrade Kim Il Sung, the great Leader of the 40 million Korean people, the founder and Leader of our Party, peerless patriot, national hero, ever-victorious iron-willed brilliant commander and one of the outstanding leaders of the international communist and working-class movements, and are fervently congratulating the Fifth Congress of our Party and are full of a revolutionary determination to carry out to the end the programmatic tasks set by the Leader at the Party Congress.

The demonstration was also a convincing proof of how strong is the might of our people under arms.

Glory to the Brilliant Leader Comrade KIM IL SUNG

The air over the square is shattered by a salute of 500 guns.

The mammoth demonstration has begun! First comes a giant basket of flowers carrying the feelings of absolute trust and fidelity our 40 million people express to their fatherly Leader Comrade Kim Il Sung in warm congratulation of the success of the Fifth Congress of the Workers' Party of Korea.

The square resounds with the grand chorus of the "Song of General Kim Il Sung." Then a statue depicting the brilliant Leader of revolution Comrade Kim Il Sung pointing out the road to communism in front of a big red flag bearing our Party's emblem appears guarded by armed paraders carrying the Party flags, Red flags and national flags of the Democratic People's Republic of Korea.

The demonstrators give vent to their feelings of boundless reverence for and gratitude to the fatherly Leader who has brought our people today's glory of living in the powerful socialist state, and they, waving high over their heads pennants and bunches of flowers, shout again and again at the top of their voices "Long live Comrade Kim Il Sung, the respected and beloved Leader of the Korean people!" and "Long live the Workers' Party of Korea!"

The demonstrators extend the heartfelt, highest honour to Comrade Kim Il Sung, the brilliant Leader who rose high as the sun of the nation and shed radiant rays on the dark land in the grimmest days of Japanese imperialist colonial rule when even the sun and the moon lost their shine, the outstanding Leader of revolution who founded the great idea of *Juche*, Marxism-Leninism of our times, organized and led to victory the glorious anti-Japanese armed struggle, restored the fatherland and built up the brilliant revolutionary traditions of our Party, the respected and beloved Leader of us 40 million Korean people who founded the Workers' Party of Korea and developed it into an all-conquering iron party, a great party throwing radiant rays in the van of the world revolution, ushered in a new era of socialism-communism in this land, and turned

our country into the "cradleland of *Juche*" praised by the world people and a socialist industrial state, and the great Marxist-Leninist of our times and one of the outstanding leaders of the international communist and working-class movements who defeated ferocious U.S. and Japanese imperialism and wrote a new page in the history of the world anti-imperialist, anti-U.S. imperialist struggle and lights up the road of the Korean revolution and the world revolution.

Overcome with immeasurable emotion, joy and excitement, the paraders send enthusiastic cheers to the outstanding, brilliant Leader who always leads the Party and the people to victory.

The fatherly Leader, smiling all over his face, raises his hand high and acknowledges their cheers.

Tears of emotion run down the faces of the joyful crowds who stand on tiptoe to see even a little better the fathomlessly benign fatherly Leader of the 40 million Korean people.

The slogans reading "Long live the great revolutionary ideas of Comrade Kim Il Sung!" "Let us defend with our lives the Party Central Committee led by Comrade Kim Il Sung!" pass the rostrum together with waves of demonstrators, echoing their feelings of loyalty burning in their hearts.

Over the columns of marchers full of a determination to make the great revolutionary ideology of the Leader their own flesh and bone and bring it into full bloom in this land, are seen the shining letter "*Juche*" and models of the "Selected Works of Kim Il Sung" and his other brilliant works.

Then comes a model of the "Monument to the Victory in the Pochonbo Battle" vividly showing that our Party's brilliant revolutionary traditions were established in the flames of the anti-Japanese armed struggle organized and led by the respected and beloved Leader Comrade Kim Il Sung. Demonstrators in the uniform of anti-Japanese guerillas march past dancing the dance of the Red flag round it.

The square again rings with stormy cheers "Long live the great Leader Comrade Kim Il Sung!" and turns into a waving sea of flowers and thousands or tens of thousands of balloons soar up into the sky.

Our children who study and grow up most happily in the world run up to the rostrum and present Father Marshal Kim Il Sung with bunches of fragrant flowers carrying the feelings of millions of Young Pioneers.

The square where fidelity to the Leader, fidelity of living and fighting only for the Leader, bursts forth like an active volcano is the very indicator of the mettle of *Juche* Korea.

Brilliant Victory of Juche Idea, Great Fruit Borne by Line of Independence

Along with the float imitative of the Chollima statue, the columns of the Chollima riders with rifles on their shoulders, the heroes of our era, march with measured tread, flying a flag bearing a portrait of Comrade Kim Il Sung, the great Leader of revolution.

The demonstrators pass by the rostrum, sending cheers to the fatherly Leader and chanting with high pride hymns of praise to the history of victory—the path of struggle they have traversed splendidly bringing into practice the Leader's great line of building an independent national economy, the Chongsan-ri method and Chongsan-ri spirit initiated by him, the original system of guidance and management of socialist economy established by him and his economic theory and carrying forward dynamically economic construction and defence upbuilding in parallel.

A giant float of a blast furnace bearing a slogan reading "Long live our country, the socialist industrial state!" rolls into the square demonstrating the might of *Juche* Korea which has performed in a matter of 14 years the difficult, complex task of industrialization which took the capitalist countries a few centuries.

Our heroic working class have created the "speed of Kangson," a new speed of Chollima, and dashed ahead in the one-beats-a-hundred spirit, upholding the instructions of the respected and beloved Leader Comrade Kim Il Sung with all their hearts, and thus hit the production targets for this year before the Fifth Party Congress. Now they offer the heartfelt greetings to the fatherly Leader with a single mind to be loyal to him.

A "bumpr crop grandpa," a rifle slung over his shoulder, drives a tractor into the square brimming over with happiness and joy, holding high the banner of Guards First Class and leading a "big army of corn and fruit crops and livestocks."

This big "bumper crop grandpa" float gives us a vivid picture of the appearance of our socialist countryside where a bumper crop has been harvested every year thanks to the technical, cultural and ideological revolutions and irrigation, mechanization, electrification and chemicalization promoted vigorously along the bright path pointed out by the Leader in his "Theses on the Socialist Rural Question in Our Country."

Big panels of diagrams or pictures stream into the square one after another along with the placard saying "Long live the socialist system of our country nice to work, good to live!" These panels glaringly show what a worthwhile and happy life our people enjoy.

With every passing minute, people feel greater pride in living in an era of great changes, an era of proud victories.

Recalling with high pride the words of the respected and beloved Leader Comrade Kim Il Sung: **"All our victories represent a shining victory for the *Juche* idea of our Party and are a great fruit borne by the independent line of our Party,"** the demonstrating crowds extend the greatest thanks to the fatherly Leader who has led our people to victory and happiness as seen today.

The resounding shouts "Long live the great Leader Comrade Kim Il Sung!" echo through the square.

Columns of armed Red Worker-Peasant Militiamen and Red Young Guardsmen march past the square, holding posters reading "Long live the unity and cohesion of the whole Party and entire people based on the *Juche* idea of the great Leader Comrade Kim Il Sung!" "We've trained ourselves into one-beats-a-hundred fighters" and the like.

The demonstration shows that according to the Leader's great idea of self-defence, the entire people have been placed under arms and the whole country has been built solidly into an impregnable fortress so that any enemy can be knocked down.

Revolutionary Determination to Advance Vigorously towards Implementation of the Great Programme

The square seethes and bubbles over with the ecstasy and joy over having the great revolutionary programme for the nation-wide victory of our revolution and the complete victory of socialism.

All the demonstrators make a solemn resolve to thoroughly implement the resolutions of the Fifth Congress of our Party.

There appear over surging columns of demonstrators slogans reading "Let's equip ourselves thoroughly with the unitary ideology of our Party!" "Let's revolutionize and working-classize the whole country!" and "Let's become the guards and death-defying corps infinitely loyal to the Leader!" and the panels of diagram showing the brilliant prospects of the Six-Year Plan.

Having indelibly engraved in their minds the programmatic teaching of the respected and beloved Leader Comrade Kim Il Sung: **"The basic task of the Six-Year Plan in the field of socialist economic construction is to further cement the material and technical foundations of socialism and free the working people from arduous labour in all fields of the national economy, by consolidating and carrying forward the successes gained in industrialization and advancing the technical revolution onto a new, higher plane,"** the paraders are now burning with the revolutionary determination to creditably carry out without fail the programmatic tasks set forth by the Leader.

Streaming into the square are the slogans, panels of diagram and floats showing our industry and agriculture when comprehensive mechanization, semi-automation and automation will be effected in accordance with the prospective three major tasks of the technical revolution.

The figures of production target to hit in 1976, the last year of the Six-Year Plan, gladden the people—3,800,000-4,000,000 tons of steel, 50,000,000-53,000,000 tons of coal, 28,000,000,000-30,000,000,000 kwh of electricity, 500,000,000-600,000,000 metres of textiles, 1,600,000-1,800,000 tons of marine products, 7,000,000-7,500,000 tons of grain, 800,000-1,000,000 tons of fruits and 3,000,000,000 eggs.

Women workers from light industry factories, boundlessly inspired by the great solicitude shown by the Leader for freeing women from the heavy burdens of household work, move across the square, renewing their firm resolve to devote all their energy and wisdom to scaling the textile height of the Six-Year Plan before workers in any other domains and to further developing the foodstufis and daily necessaries industries.

Wave after wave of demonstrators enter the square with floats, dancing or chanting hymns of praise to a bright future, resplendent morrow.

The square rings with the cheers and stamping of the paraders who are ready to top without fail the high peaks of the Six-Year Plan, the great plan of the respected and beloved Leader Comrade Kim Il Sung and thus demonstrate the strong mettle of Chollima Korea to the whole world.

For National Unification, for Victory of Anti-Imperialist, Anti-U.S. Imperialist Struggle

The columns of armed men in uniform of the three services of the Korean People's Army and mechanized units of the Red Worker-Peasant Militia march past, fully demonstrating their steel-like, politico-ideological and military-technical might they have fostered in accordance with the Party's military line.

The hearts of the demonstrators carrying the poster bearing the slogan "Let's drive out the U.S. imperialists and unify the country!" are burning with a vow to attain national unification and the nation-wide victory of the revolution, and are beating high with a resolve to wipe out the U.S. imperialists and Japanese militarists, the sworn enemies, and the Pak Jung Hi puppet clique, a pack of their dual dogs.

The columns of demonstrators pass by the rostrum, dancing dances depicting the heroic struggle of the South Korean people who have come out in the anti-U.S. imperialist, national-salvation struggle for winning their own freedom and liberation and for achieving national unification under the flag of the Democratic People's Republic of Korea, looking up to Comrade Kim Il Sung as the sun of the nation, and upholding his strategic and tactical lines.

"We support and encourage the South Korean people in their anti-U.S. imperialist, national-salvation struggle!"

"We support and encourage the Korean citizens in Japan in their struggle for the defence of the democratic, national rights!"

The square is overbrimming with the warm feelings of the people in the northern half of the Republic who give active support and encouragement to the South Korean revolutionaries and people and to the fellow countrymen in Japan.

The columns of sportsmen who have proudly demonstrated the honour of Chollima Korea to the whole world and prepared themselves fully for labour and national defence are followed by marchers carrying posters bearing slogans calling for strengthening the international solidarity of our revolution and for hastening the victory of world revolution.

The marchers hold the placards reading "Long live Marxism-Leninism!" "Let's intensify the anti-imperialist, anti-U.S. imperialist struggle!" "Long live world revolution!" and "Long live the unity and cohesion of the socialist countries!" and have the panel bearing portraits of Marx and Lenin at the head of their columns.

The demonstrators and onlookers resolve all alike to carry through to the end the all-conquering strategy of anti-imperialist, anti-U.S. imperialist struggle laid down by the great Leader Comrade Kim Il Sung, particularly, his original strategic line of strengthening the militant solidarity of the Asian revolutionary people and stepping up their anti-U.S. imperialist joint struggle.

The paraders carry the poster saying "Long live the anti-U.S. imperialist joint front of the revolutionary peoples of Asia including Korea, China, Vietnam, Cambodia and Laos!"

The grandiose columns of 300,000 demonstrators stream on endlessly.

A big balloon lifts skywards a poster reading: "Dear Leader, may you live a long life in good health!" and there appears a float before the rostrum amid the thunderous cheers of the crowds, the float symbolic of the red sun rising over the lovely land of 3,000 *ri* which is to be unified according to the great revolutionary ideas of the Leader and under his wise leadership.

Representatives of the workers, peasants, office employees, servicemen, youths and students present the Leader with a basket of flowers reflecting the unanimous wish of the 40 million Korean people for his long life in good health.

At the moment the whole square is rocked by the deafening shouts "Long live the great Leader Comrade Kim Il Sung!"

Though the demonstration has come to an end and the Leader dismounted the rostrum, the crowds packing the square full linger on there for a long while, loudly singing in chorus the songs "Marshal Kim Il Sung Is the Great Leader of the People" and "Song of General Kim Il Sung" choked with emotion and joy of seeing the Leader for themselves.

Hong Rae Hi

In the evening a salute of guns is fired in Pyongyang, the festively decorated capital of the revolution, in honour of the historic Fifth Party Congress

Congress of Cohesion, Congress of Victory

The Fifth Congress of the Workers' Party of Korea closed with a brilliant success—the congress of cohesion and victory that demonstrated to the whole world the great victory in industrialization, an overall victory of the *Juche* idea, that added another immortal feat to the history of our Party founded and led by Comrade Kim Il Sung, the outstanding Marxist-Leninist and genius Leader of the revolution.

The assembly hall of the Congress was overbrimming with the flood of surging emotion and excitement and was seething with intense loyalty from beginning to end. And these warm feelings have still stayed on in our hearts, though a few days flew by since the closing of the Congress.

Many a time the proceeding of the Congress was punctuated with the resounding shout of *manse* (hurrah) and applause carrying the warm feelings—the unbounded respect for and adoration of, infinite trust in and fervent loyalty to, the great Leader Comrade Kim Il Sung who founded our Party on the strong roots of the Party founding he had personally prepared in the flames of the anti-Japanese armed struggle, who consolidated and developed it into the most revolutionary and militant Party as seen today and who brought about unheard-of great changes in our country and made it widely known to the whole world as the "cradleland of *Juche*" and as a mighty socialist industrial state!

And how many a time we felt a lump rising in our throat when we thought of the lofty communist virtues of the fatherly Leader Comrade Kim Il Sung who gives so much love to us people!

On the evening of the last-day session of the Congress it was announced that Comrade Kim Il Sung, the great Leader of our Party and the 40 million Korean people, had been elected General Secretary of the Party Central Committee. At that moment there was a burst of great joy and inexpressible emotions reigned all over the hall.

A loud ringing shout of "Long live the great Leader Comrade Kim Il Sung" and hearty rounds of stormy applause! The assembly hall was literally a seething cauldron of emotion and joy.

The unending cheers of *manse* and applause were an outburst of lofty, warm feelings dedicated to the Leader—the greatest thanks to, admiration for and unqualified trust in him—by the peoples of our country which became a powerful socialist industrial state in a historically shortest space of time because the Leader led them to the right path, holding aloft the banner of the great *Juche* idea, the immortal revolutionary banner.

At the same time they were a great demonstration of the indestructible unity and cohesion of the whole Party and the entire people, based on the revolutionary ideas of the Leader, a manifestation of their iron-strong resolve to follow the guidance of the Leader for ever and expedite the complete victory of socialism and the nation-wide victory of the Korean revolution.

In his report to the recent Party Congress the great Leader Comrade Kim Il Sung declared:

"Today the unity and cohesion of our Party have been uplifted onto a new, high plane and have become most vitalized and most solid. We can say it is not until today that the unity and cohesion of the Party we Communists wanted to see so much have been fully realized on the basis of the unitary ideological system of *Juche*."

It is the most valuable fruition and brilliant victory our Party has ever attained during the period under review that the immovable unity and cohesion of the whole Party and the entire people on the basis of the great *Juche* idea of the respected and beloved Leader Comrade Kim Il Sung and with him as the centre have been uplifted onto a new, higher plane.

The great unity and cohesion attained under the leadership of the Leader serve as a sure guarantee for the complete victory of socialism and the nation-wide victory of the Korean revolution.

That is why every one of us Korean people holds dear as the apple of his eyes these unity and cohesion based on the great *Juche* idea and makes a firm resolve to defend them firmly in any storm and stress. This is an unshakable faith of the entire Korean people.

The Fifth Party Congress demonstrated with high pride the great victory of his great *Juche* idea and the rock-firm unity and cohesion of our Party which are based on that great idea.

Comrade Yank Ok Nyo, a delegate from the Chagang Provincial Party organization, said in an excited tone:

"We can never find in this world a people more glorious and happier than our Party members and people who have Comrade Kim Il Sung, the genius Leader of the revolution, as General Secretary again."

Really glorious and happy are our Party members and people.

And they could, and can, dash on along the triumphant path of the Korean revolution, weathering out all kinds of trials, because they have had as the Leader Comrade Kim Il Sung, the outstanding Marxist-Leninist of our age and the genius of the revolution.

Both at the rostrum of the Congress and in lounges during a break each of the delegates spoke impressively of what a great change the wise guidance of the Leader and his utmost care had brought about to his factory, his farm or his village.

The delegate from the Chollima Kangson Steel Plant had this to say:

"Having returned home in triumph after defeating the robbers Japanese imperialists, the Leader called on us the working class of Kangson first of all prior to his visit to Mangyongdae, his dear native village. Saying that the masters of the Korean revolution are the Korean people, he implanted in our minds the immortal *Juche* idea, the revolutionary idea. Since then, too, the Leader visited us in person scores of times and gave us steel makers fresh strength and courage with which we could iron out any difficulties, and roused us to the struggle for greater victory. Thus our steel plant has now turned into one of the giant, powerful metallurgical industry bases."

This is, of course, not confined to the Kangson Steel Plant alone.

True, Comrade Kim Il Sung, the great Leader of the revolution, not only saw through everything, looking far ahead into the future with clairvoyant power, but also grasped in good time the intention of the people as well as the ripe questions raised by life, and showed the path our people should follow.

Comrade Kim Il Sung, the great Leader who had initiated the *Juche* idea, the everlasting revolutionary idea, gave explicit answers, on the basis of his brilliant intelligence and rich experiences, to the theoretical and practical questions arising in the revolution and construction, making his way along the untrodden path to the final victory for the cause of socialism and communism in our country. Thus he enriched the treasure-house of Marxism-Leninism.

The great revolutionary ideas of the outstanding Marxist-Leninist Comrade Kim Il Sung represent the unitary guiding ideology for victory of our revolution and the all-conquering Marxist-Leninist ideology.

The assembly hall was pervaded throughout with the intense loyalty and fiery determination to equip themselves with the Leader's revolutionary ideas and translate them into action thoroughly.

The attendants of the Congress said that as the immortal feats performed by our Party are unthinkable apart from the *Juche* idea created by the great Leader of revolution Comrade Kim Il Sung and from his wise leadership, the happiness our people are now enjoying can never be mentioned apart from his lofty communist virtues.

And the attendants felt their hearts warming up with the Leader's warm love for the people that finds its expression in the prospective tasks of the Six-Year Plan unfolded by him.

In his report to the Fifth Party Congress the respected and beloved Leader Comrade Kim Il Sung pointed out:

"The basic task of the Six-Year Plan in the field of socialist economic construction is to further cement the material and technical foundations of socialism and free the working people from arduous labour in all fields of the national economy, by consolidating and carrying forward the successes gained in industrialization and advancing the technical revolution onto a new, higher plane."

Moreover, the Leader taught us how to step up the technical revolution vigorously so that mechanization and automation can be introduced in all domains of the national economy, that the working people be freed from the arduous labour, the distinctions between heavy and light labour and between agricultural and industrial labour be narrowed down to a considerable extent and women can be extricated from the burdens of household chores at the earliest possible date. Not content with this, the Leader explored various possibilities of their realization and suggested in detail even the concrete methods and measures, when he heard the delegates referring to the question of freeing the people from the arduous labour and promoting their material and cultural welfare.

Hearing the speeches of the delegates, the Leader made an analysis of the statistical figures of the nation-wide egg production he obtained and earnestly asked them to further increase its production. And he inquired about how vegetables were supplied and personally set up a well-balanced supply system.

It is too natural that we should feel a lump standing in our throat, thinking of the lofty intention of the Leader who looks after the livelihood of the people as carefully as real parents would do.

He extends kindred love to the people and believes in the strength of the masses.

Labour Hero Comrade Li Chang Jun, head of the mechanization workteam of the Sinhwanpo Co-operative Farm in Chaeryon county, said as follows:

"The fatherly Leader visited South Hwanghae Province soon after the Fourth Party Congress. At that time he even met a certain tractor driver and said to him... Comrade, let me join you in introducing mechanization in the rural area...

"Short as it was, this word carried the warm love and lofty virtues of the fatherly Leader to free the peasants from the arduous labour. And reflected therein was his deep trust and expectation on tractor drivers. Feeling his love and care close to our hearts, we worked as hard as we could driving our tractors to plow the paddy fields deeply. This helped to yield 1.5 tons more grain per *chongbo* this year than the last."

It is amidst such love and such trust that our people are living. That is why they entrust everything to the Leader and put his instructions into practice going through even fire and water.

The great Leader Comrade Kim Il Sung lights up the way to be followed by our people and inspires them with inexhaustible energy in each period and at each stage of the revolution. Because we are under the guidance of the great Leader around whom we are rallied rock-firm, there can be no insuperable bottleneck or insurmountable difficulty for us.

The assembly hall was plunged again into the storm of thunderous applause and cheers just before the Congress had closed.

The great Leader Comrade Kim Il Sung, the founder of our Party and General Secretary of the Party Central Committee, again stood on the lofty rostrum of the Congress amid the roof-raising shout "Long live the great Leader Comrade Kim Il Sung!"

Declaring that the Fifth Party Congress may be called the congress of the great victory in industrialization, the congress of an overall victory of the *Juche* idea in the history of our Party and our country, he called on the entire Party members and working people to advance on vigorously towards a new goal along the new orientation of struggle indicated at the Congress and carry out without fail the magnificent tasks of the Six-Year Plan.

The attendants of the Congress accorded another roof-raising cheers and applause, representing the feeling of the entire people. This was an expression of fiery determination to remain loyal to the Leader to the end, rally iron-strong around him under the banner of his great *Juche* idea and implement certainly the resolutions of the Fifth Party Congress to the hilt.

The attendants of the mass meetings warmly congratulate the Party Congress held under the personal guidance of Comrade Kim Il Sung, the brilliant Leader of revolution and the founder and Leader of our Party, on its success and renew their firm determination to carry out with credit the magnificent programme charted by the Leader.

On November 18 a grand Sariwon city mass meeting was held at the Provincial Mass Culture Hall in celebration of the Fifth Congress of the glorious Workers' Party of Korea.

Respectfully placed on the platform of the meeting hall was a portrait of Comrade Kim Il Sung, the brilliant Leader of revolution and the founder and Leader of our Party, and on its background, an unfurled red flag bearing the shining emblem of our Party.

The meeting hall was packed to overflowing with responsible functionaries of provincial, city and county Party and government organs and public organizations as well as Party members and working people.

The meeting opened to the strains of the Patriotic Song. Chief Secretary Li Yong Ik of the North Hwanghae Provincial Committee of the Workers' Party of Korea made the report.

All Party members and working people in the province, he said, fully support and approve the great programme set forth by the respected and beloved Leader Comrade Kim Il Sung at the Fifth Congress of our Party and the resolutions adopted at the Congress and are filled with the firm resolve to strive hard for their thorough implementation.

The speaker said:

The Party members and working people in the province are wrapped in deep emotion and great joy at the news that Comrade Kim Il Sung, the great Leader of the 40 million Korean people, the founder and Leader of our Party, peerless patriot, national hero, ever-victorious iron-willed brilliant commander and one of the outstanding leaders of the international communist and working-class movements, has been elected General Secretary of the Party Central Committee.

Reflecting the unanimous feeling of loyalty of all Party members and people in the province, he extended the greatest thanks and honour to the great Leader of our Party and the 40 million Korean people Comrade Kim Il Sung who, taking upon himself the destinies of the fatherland and the nation for more than 40 years, has victoriously explored the road of the Korean revolution and leads our people to victory and glory, happiness and prosperity at all times.

Quoting the teaching of the respected and beloved Leader Comrade Kim Il Sung: **"The Fifth Congress of our Party may be called the congress of the great victory in industrialization, the congress of an overall victory of the *Juche* idea in the history of our Party and our country,"** the speaker said:

The Party Congress is a congress of glorious victory which has splendidly demonstrated the historic victory scored in the revolution and construction under the rays of the great *Juche* idea founded by the brilliant Leader of revolution Comrade Kim Il Sung.

In particular, the Party Congress, reflecting the unanimous aspiration and will of the entire Party members and people, elected the great Leader of our Party and the 40 million Korean people Comrade Kim Il Sung General Secretary of the Party Central Committee and thereby fully demonstrated the indestructible unity and cohesion of the whole Party and the entire people rallied closely as one around the Leader and showed the iron will and resolve of us entire Party members and people to vigorously fight on along one road of victory having him as the Leader forever.

The speaker referred to the great changes that have taken place in North Hwanghae Province under the sagacious guidance and constant solicitude of the respected and beloved Leader Comrade Kim Il Sung.

The respected and beloved Leader Comrade Kim Il Sung in his report to the Party Congress set our Party and people the huge tasks of the Six-Year Plan, a new fighting programme, he said and pointed out: The bright prospects boundlessly inspire all Party members and working people in the province and rouse them to a new heroic feat.

All Party members and working people in the province, he stressed, will carry out to the end the programmatic tasks set forth by the fatherly Leader even though their bones are broken to pieces and their flesh is ground to powder and thus remain loyal to him.

Then responsible functionaries of government organs and working people's organizations in the province took the floor at the meeting.

Amid loud applause the attendants of the meeting unanimously adopted a letter of pledge addressed to Comrade Kim Il Sung, the respected and beloved Leader of our Party and the 40 million Korean people.

The meeting closed with the chorus of the "Song of General Kim Il Sung."

On the same day a Haeju city mass meeting was held in celebration of the Fifth WPK Congress. The attendants of the meeting made up their minds to fulfil ahead of schedule the Six-Year Plan put forth by the Leader and carry through particularly the programmatic on-the-spot teachings personally given by the Leader in South Hwanghae Province and thus scale the height of two million tons of grain, the production target set before their province.

Similar meetings were held in Hyesan, Sinuiju and Kanggye and other provincial seats.

"Six-Year Plan Target Shall Be Attained without Fail"

Steelmakers Are Out to Carry into Effect Militant Programme Put Forward by the Leader at Fifth Party Congress

The proud news about the Fifth Congress of the Workers' Party of Korea which has successfully concluded its work under the personal guidance of the great Leader of our Party and the 40 million Korean people Comrade Kim Il Sung is now rousing the entire people of our country to a powerful struggle for fresh, heroic exploits, moving them to unbounded extent.

The steelmakers of the Chollima Hwanghae Iron Works, a giant metallurgical centre on the west coast of our country, are now effecting fresh innovations at every workplace out of a burning desire to fly the banner of triumph over the steel height of the Six-Year Plan mapped out by the Party Congress, looking back with high pride on the tremendous achievements so far made in the production and construction under the wise guidance of the respected and beloved Leader Comrade Kim Il Sung.

During the Seven-Year Plan the Hwanghae Iron Works readjusted and replenished all production processes with up-to-date technique and boosted its production capacity markedly and thus turned into a giant, modern metallurgical combine with better-balanced inner-structure of production. The steelmakers of the iron works infinitely loyal to the Leader increased the output of pig iron 3.4 times, steel 2.8 times and rolled stock 3.4 times respectively and greeted the Fifth Party Congress with the overfulfilment of their Seven-Year Plan for all items.

They accepted with another deep emotion the magnificent programme put forward by the Leader at the recent Party Congress.

In his report to the Congress the respected and beloved Leader Comrade Kim Il Sung instructed as follows:

"While intensifying the struggle to increase pig-iron output at the least possible expense of coke in the iron industry, we must positively develop the iron industry by using home-produced fuel."

Upholding the Leader's programmatic instruction, the steelmakers of the Hwanghae Iron Works set out on a more dynamic march in order to make an active contribution to further solidifying the base of *Juche* metallurgical industry and reinforcing the economic and defence power of the country.

The output of steel and pig iron has increased sharply since the Party Congress; the output of steel at open-hearth furnaces No. 1 and No. 2 has grown 1.5 times these days.

The workers of the unfinished steel shop scored a miraculous success; they increased the output of large rolled stock of new size and new assortment 2.6 times as much as that at the end of the first half of this year.

The rolling workers of the thin plate shop extensively carried on the movement for collective technical innovation, with the result that the output per rolling worker increased by 30 per cent compared with the previous figure.

Labour Hero Comrade Chu Sang Su of the iron works said as follows at the smelting shop where molten iron flowed out like a waterfall:

"The spirits of us smelters are sky-high now.

"The recent Party Congress set it as a target to produce in 1976, the last year of the Six-Year Plan, 3,500,000-3,800,000 tons of pig iron and granulated iron, 3,800,000-4,000,000 tons of steel and 2,800,000-3,000,000 tons of rolled stock. What a proud prospect it is!

"This goal shall be attained without fail. Because it is what the Party led by the respected and beloved Leader Comrade Kim Il Sung has decided upon.

"We will lead in the fulfilment of this glorious task."

The flames of innovation are furiously flaring up in the Kim Chaek Iron Works, too, one of the giant metallurgical centres in the northern section of our country.

The steelmakers there are daily putting out hundreds of tons more pig iron than at the time they were all out to capture the steel height of the Seven-Year Plan.

Members of the two Chollima workteams of blast furnace No. 2, bringing into full play the communist trait of helping and leading each other forward, took good care of the equipment of their blast furnace and increased iron production 1.2-1.3 times while drastically cutting down the expense of coke.

The Chollima riders of the steel shop increased the steel output by 20 per cent this month as against the last.

During the Six-Year Plan the Kim Chaek Iron Works will turn into a large-scale metallurgical combine producing 2.8 times more pig iron and 3.5 times more steel and putting out rolled stock of various sizes and kinds and second-stage processed metal products including tin and zinc plate.

When the Six-Year Plan is carried out, this iron works will grow in scale of its production and produce a large quantity of iron while freeing the smelters from heat-affected labour and making their work easy, by mechanizing and automating its production processes to a high degree.

"We will fulfil our assignment of the Six-Year Plan ahead of schedule to live up to the deep trust and expectation of the Leader."

This is what Merited Smelter Hwang Dae Yon said.

Spokesman of DPRK Foreign Ministry Issues Statement

The Government of the Democratic People's Republic of Korea and the Korean People Resolutely Denounce the Criminal Act of the U.S. Imperialist Aggressors against the Democratic Republic of Vietnam

The spokesman of the Foreign Ministry of the Democratic People's Republic of Korea made public on November 17 the following statement resolutely denouncing the U.S. imperialists for resorting of late to a more vicious scheme to further intensify the acts of aggression against the Democratic Republic of Vietnam:

Lately, the U.S. imperialists are resorting to a more vicious scheme to further intensify their acts of aggression against the Democratic Republic of Vietnam.

When a reconnaissance plane of the U.S. imperialist aggressor army was downed on November 13 by the self-defensive measure of the Vietnamese People's Army while perpetrating espionage acts after openly intruding into the air space of the Democratic Republic of Vietnam, defence secretary Laird, a warmaniac of U.S. imperialism, had the cheek to vociferate that the U.S. imperialists would "remain ready to take appropriate action to protect the lives" of their aggressor armymen and the like.

The intrusion of the reconnaissance plane of the U.S. imperialist aggressor army into the air space of the Democratic Republic of Vietnam is an intolerable encroachment upon the sacred sovereignty of the Vietnamese people and, accordingly, the downing of this reconnaissance plane is an exercise of the legitimate right of the Vietnamese people to self-defence and a deserved punishment to the aggressor.

This notwithstanding, the U.S. imperialist aggressors, using this as a pretext, are croaking about the "renewal of attack" on the Democratic Republic of Vietnam. This is an open challenge to the Vietnamese people and reveals in all its nakedness the brigandish nature of the U.S. imperialists who are running amuck in aggression and war escalation.

The Government of the Democratic People's Republic of Korea and the Korean people resolutely denounce this criminal act of the U.S. imperialist aggressors against the Democratic Republic of Vietnam and fully support the November 14 statement of the spokesman of the Foreign Ministry of the Democratic Republic of Vietnam denouncing the U.S. imperialists' new scheme for the escalation of the war.

The U.S. imperialists' scheme to further intensify the aggressive acts today against the Democratic Republic of Vietnam under the preposterous pretext clearly shows that they are still attempting to find a way out of their serious military and political setbacks in Vietnam in the escalation of the aggressive war.

With no amount of frenzied manoeuvres, however, can the U.S. imperialists put into effect their aggressive design or extricate themselves from the pit of defeat into which they have sunken deep.

The U.S. imperialists must unconditionally and definitively stop all acts of aggression against the Vietnamese people and immediately get out of South Vietnam, taking along their aggressor army and the troops of their satellites and puppets. Should the U.S. imperialists, in defiance of the strong condemnation of the peace-loving people the world over, embark upon the reckless road of escalating their aggressive war in Vietnam, this will only hasten their own miserable doom.

The Korean people will, in the future, too, continue to actively support with might and main the just war of resistance of the heroic Vietnamese people against the U.S. imperialist aggressors and for national salvation.

The Vietnamese people who are enjoying the active support of all the revolutionary peoples of the world and fighting in firm unity with the Indochinese peoples will certainly win final victory in their sacred struggle for liberating the South, defending the North and achieving the reunification of the fatherland.

For Comprehensive Mechanization of Agriculture

Boundlessly inspired by the magnificent programme set forth by the respected and beloved Leader Comrade Kim Il Sung at the Fifth Congress of our Party, the agricultural working people in various parts of our country are now making one innovation after another in their farm work with heightened revolutionary enthusiasm to fulfil the Six-Year Plan with flying colours.

Co-op farmers in Chaeryong county of South Hwanghae Province, one of the granaries of our country, are now all out to engage in thrashing and land improvements in wake of autumn harvest.

This year this county did farming well and produced over 4,000 more tons of grain than the record year.

During the period from the Fourth Congress of our Party up to now, grain output increased by 43 per cent, meat by 57 per cent, fruit by 280 per cent, cocoons by 32 per cent and vegetables by 36 per cent in this county.

The people in this county are scoring unprecedented labour results with the feelings of unbounded gratitude and loyalty to the respected and beloved Leader Comrade Kim Il Sung who has enabled them to attain the success of today.

In his report to the recent Party Congress, the great Leader Comrade Kim Il Sung said as follows:

"In the period of the new prospective plan an all-people movement should be waged to introduce comprehensive mechanization first in the two-crop dry fields under the irrigation system and in the paddy fields where rice is sown direct and gradually expand its successes to materialize the comprehensive mechanization of agriculture in an all-round way in the near future.

"Extensive readjustment of land is an urgent task in realizing the all-round mechanization of agriculture at the present period."

Whole-heartedly upholding the instruction of the Leader, the workers of the Chaeryong Land Improvement Office have tackled the job of readjusting 120 *chongbo* of land with the help of a great number of tractors.

They set themselves the target of converting the huge tracts of dry and paddy fields into standardized ones before land is frozen over, and fulfil their quotas by 60-100 per cent every day.

The workers of the mechanization workteam of the Hwangju Farm Machine Station in North Hwanghae Province are also making new records in autumn plowing, filled with a firm resolve to carry through the programmatic tasks advanced by the Leader without fail.

Comrade Kim Son Hung of this station who exceeds his plan twice or thrice every day said that no matter how hard he may work he does not feel fatigued when he pictures in his mind the prospects of the Six-Year Plan, and continued:

The fatherly Leader earnestly instructed that an eight-hour working day should be introduced in the co-op farms, too, gradually in the near future as in the factories and enterprises and the distinctions between town and the country be drastically narrowed down in working condition by carrying out mechanization and chemicalization in an all-round way.

Indeed, these words are permeated with the warm love and profound solicitude and communist virtues of the respected and beloved Leader who makes all efforts to free our peasants who were subjected to drudgery for centuries from arduous labour forever.

Displaying the revolutionary spirit of self-reliance, we will endeavour to enhance the utility rate of tractors in every way, recondition various trailing farm machines to suit the geographical conditions and introduce new ones to carry out the comprehensive mechanization and chemicalization of agriculture.

Thus we will do our best to discharge the duty of frontrankers in the rural technical revolution realizing the far-sighted plan of the Leader.

S. Korean People Fight On Vigorously

The South Korean people of all walks of life keep up the furious struggle for the right to live, for democratic freedom and against the war policy and fascist repression by the U.S. imperialists and the Pak Jung Hi puppet clique, their stooges.

Enemy's Communication Disrupted by Struggle of Patriotic Inhabitants

According to a South Korean radio news, patriotic inhabitants of Taejon city, South Chungchong Province, stripped on October 20 the communication facilities of the puppet clique of 400-metre-long cable running through Hodong in the same city. Consequently, the enemy's communication for command was disrupted.

Similar struggle has recently been waged in many other parts of South Korea, causing a successive hitch to the enemy's frantic war preparation machinations. For instance, the inhabitants of Taean sub-county, Hwasong county, cut off over 1,000-metre-long communication line of the puppet clique, those of Okchon county in North Chungchong Province more than 200-metre-long enemy's military telephone line and the inhabitants of Chonghak-dong, Inchon city, Kyonggi Province, over 100-metre-long U.S. imperialist aggressor army's military telephone line, each with surprising elusiveness.

The patriotic inhabitants of the Uijongbu area, Kyonggi Province, kept up their struggle; they cut away the enemy's "guard telephone line" and cut down telephone poles. As a result, the telephone lines were put out of order and communication was disrupted between the puppet police station in Uijongbu and 6 police sub-stations and police boxes under its jurisdiction as of November 9, according to another report.

Inhabitants in Yongdungpo Ward, Seoul, Put Up Stone-throwing Fight against Officials of Puppet Government

On November 6 more than 3,000 inhabitants in Sadang-dong, Yongdungpo Ward, Seoul, staunchly fought against the outrageous eviction plot engineered by the Pak Jung Hi puppet clique according to a report from South Korea.

On that day, the Pak Jung Hi puppet clique let loose wicked jacks-in-office of the puppet "ward office" and over 200 "hooligans" to pull down 500 or more houses of the inhabitants there.

At this juncture, more than 3,000 inhabitants rose as one in a staunch struggle, throwing stones at a band of the rascals. Many of them were knocked down and their outrage was held in check for a while. But later on the Pak Jung Hi puppet clique sent a horde of armed puppet policemen to the spot.

The puppet cops ran hog-wild to pull down the houses right and left, firing even tear shells at random.

This infuriated the inhabitants all the more. They knocked out many of the puppet cops by putting up a courageous, stone-throwing fight for nearly three hours, and thus frustrated the enemy's plot for forcible eviction.

Workers Struggle for Wage-Hike

The dockers in Masan city, South Kyongsang Province, boycotted their operation en masse demanding 30 per cent and upward wage-hike, a South Korean paper reported. After a protracted tenacious struggle, they brought the vicious employers to their knees and carried through the demand.

Their struggle, in the form of dispute and strike, has continued ever since September 16; they laid bare and flayed the nefarious exploitation by the villainous employers who are under the wing of the U.S. imperialists and the Pak Jung Hi puppet clique, and demanded the wage-hike.

On November 13, over 2,700 workers of clothing factories in Central Ward, Seoul, who had been forced to work like slaves, unfolded a vigorous demonstration struggle, claiming wage-hike and improvement of working conditions.

On October 7 they thrust a written protest at the labour office of the puppet government with a 5-point demand including wage-hike and improvement of working conditions and have kept up a vigorous struggle to carry it through ever since.

The Pak Jung Hi puppet clique, however, turned a deaf ear to their demand. They had to work hard as ever for more than 16 hours a day in dark, stuffy small rooms full of dirt. So the angry workers turned out in the demonstration struggle at the end of their tether.

Thousands of drivers and conductresses of bus companies in Seoul launched out into a joint dispute on November 4.

They had started their struggle against the employers since the beginning of September. They demanded to raise their wage by 50 per cent, shorten by half the cutthroat 18-hour working day, and put an end to all manners of inhumane treatment and so on.

But, the wicked employers gave no heed to their legitimate demands from the outset, and the Pak Jung Hi puppet clique schemed to foil their struggle by using the reptile labour organizations. It goaded the indignant workers to form a joint front and stage a joint dispute to carry their urgent demands into effect.

Peasants' Struggle to Bar Military Highway Construction

According to a news from South Korea, the courageous, active struggle has recently been waged by 300 or more peasants in Yangchon sub-county, Ronsan county, South Chungchong Province. They turned up where the Pak Jung Hi puppet clique were carrying on the construction of military highway, and put a bar to it, knocking down many vicious pawns there.

The puppet clique brought their policemen into action in a frantic attempt to put it down. However, the peasants did not give in but indignantly denounced the rascals for their criminal acts and fought a fierce struggle for a long time by pooling their strength. Consequently, their highway construction project was frustrated.

Ever since August of this year they kept up an unbending struggle; they thrust the written protest at the Pak Jung Hi puppet clique, indignant at their playing havoc with a vast expanse of farm land by undertaking the construction of military highway.

Some time ago, peasants of scores of households in Chinhae, South Kyongsang Province, rushed to a munition factory run by the Pak Jung Hi puppet clique and staged a mass demonstration.

The U.S. imperialists and their pawns, the Pak Jung Hi puppet clique, running wild to prepare another aggressive war in Korea, appropriated a wide stretch of farm land when they built the chemical factory for military purpose there. Subsequently, noxious ejections and gas spread all over the farm land around it, and this did a great harm to crops.

The enraged peasants thronged the factory, bitterly condemning the rascals for the criminal acts, and vigorously fought demanding the immediate payment for the damage.

Villainous Senior Officer of "Homeland Reserve Force" Finished Off

A certain Li, a young man pressganged into the "homeland reserve force," resolutely finished off on October 22 his villainous senior officer at Wollim-ri, Hongdong sub-county, Hongsong county, South Chungchong Province, a news from Seoul said.

On that day, too, this lad, who harbored enmity and discontent with the puppet clique for having pressganged him into the "homeland reserve force" against his own will and his parents', was humiliated and beaten by the senior officer on an unreasonable charge that he was not active in the day's training.

Unable to stand it any longer, he wreaked his revenge upon the rascal on the spot.

The fierce mass struggle unfolded today by the people of all strata in South Korea is a matter-of-course product of the war policy and military fascist terror rule by the U.S. imperialists and their jackals, the Pak Jung Hi puppet clique; it is a just struggle to crush the new war provocation manoeuvres and fascist oppression by the U.S. imperialists and the Pak Jung Hi puppet clique and win the right to live and democratic freedom.

Crimes of Arch Traitor

Traitor Sells Off Country and Nation

Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, said as follows:

"...The successive rulers of the South Korean puppet regime are, without exception, stooges fostered by the U.S. and Japanese imperialists and the traitors to the nation who sold the country and the nation to their masters. As for the present rulers who form the South Korean puppet regime today, they are also traitors who betrayed the country and the people in the past like all their predecessors." ("The Democratic People's Republic of Korea Is the Banner of Freedom and Independence for Our People and the Powerful Weapon of Building Socialism and Communism," p. 76.)

The Pak Jung Hi puppet blackguards who usurped the puppet regime under the aegis of U.S. imperialism are a pack of traitors who sold the country and the nation lock, stock, and barrel to U.S. and Japanese imperialism; they are a band of arch-traitors most wicked and abominable among the successive rulers of the South Korean puppet regime.

From the first day he was installed in the puppet regime, the traitor Pak Jung Hi ran wild to put South Korea under tighter control of U.S. imperialism as its complete colony and military base for aggression, blaring that he would "do anything for the sake of the United States."

No sooner had he wormed his way into the puppet regime than the traitor Pak Jung Hi pledged to his master that he would observe more thoroughly scores of aggressive, shackling "treaties" and "agreements" such as the "South Korea-U.S. mutual defence treaty" and "South Korea-U.S. protocols," in which the permanent occupation of South Korea by the U.S. imperialist aggressor forces and conversion of the whole of South Korea into a military base of U.S. imperialism for aggression are explicitly stipulated.

This villainous traitor made no scruple to fake up the criminal "status of forces agreement" which leaves the brutal murder and brigandish atrocities committed by the U.S. imperialist aggressor troops completely out of the "criminal jurisdiction" of the puppet regime, and thus committed the crime of fully legalizing the extraterritorial status and privileges of the U.S. imperialists in South Korea.

Moreover, those rascals framed up the permanent bodies for country-selling such as "South Korea-U.S. regular ministerial council" and the "South Korea-U.S. defense ministerial council," and thus have been intent on a faithful execution of the U.S. imperialist policies of colonial enslavement and war.

The Pak Jung Hi fascist gangsters have put South Korea under tighter control of U.S. imperialism not only politically but also economically.

The Pak Jung Hi puppet blackguards amended for the worse the "South Korea-U.S. economic aid agreement," and other shackling economic "agreements," and thereby granted U.S. imperialist monopoly concerns extraterritorial privileges so that they could conduct unbridled business activities in all domains of South Korea—commerce, industry, banking, etc.

The Pak Jung Hi puppet clique so much hell-bent on executing the new war provocation policy of the U.S. imperialists have been getting frantic in making a mess of the national economy and building a large number of military establishments and war industry, prating that the "strategic industry" should be "fostered" under the high-sounding catchword "modernization."

Last year alone, the Pak Jung Hi puppet clique actually earmarked more than 90 per cent of the "budgetary expenditure" of the puppet regime for war preparation and fascist suppression. The scoundrels now bleed the South Korean people white through the "office of tax" and many other predatory organs only to place the whole lot of the money thus obtained at the disposal of U.S. imperialism for its aggression and war.

The Pak Jung Hi puppet clique engrossed in betraying all the national interests to foreign monopoly capital, let in a flow of foreign monopoly capital on an extensive scale by rigging up even the "foreign capital introduction law." As a result, the South Korean ecohomy has been subordinated to U.S. imperialism and foreign monopoly capital more thoroughly.

Owing to such thrice-cursed, treacherous criminal acts of the traitor Pak Jung Hi, 2.5 billion dollars of foreign capital have made inroad into South Korea and held complete sway over main arteries of South Korean economy.

South Korea has come to depend on U.S. imperialism and monopolies of its satellite allies for 80 to 100 per cent of important raw and other materials and for almost 100 per cent of machine, equipment and their spare parts. And it was once a granary but has now turned into a land of chronic famine into which over a million tons of rice have to be imported every year.

Furthermore, the Pak Jung Hi puppet clique have converted South Korea into a complete military base of U.S. imperialism for its aggression.

Today more than a half of the U.S. imperialist aggression armed forces in the Pacific area is massed in South Korea; the number of their military bases built there runs into more than 200. And the bulk of mass destruction weapons such as strategic nuclear weapons and guided missiles has been brought in there.

The traitor Pak Jung Hi left the prerogative of supreme command over the South Korean puppet army more than 700,000 strong in the hands of U.S. imperialism, his master; he is no more than a marionette controlled by the U.S. imperialist aggressor army, unable to replace even an officer of the puppet army or consume war supplies at his will.

The detestable traitor Pak Jung Hi even formed the so-called "homeland reserve force" to offer all the youth and middle-aged men to U.S. imperialism as bullet shields. In particular, the traitor Pak Jung Hi turned South Korea into a key supply base of cannon fodder for the U.S. imperialist war of aggression on Vietnam. To the battlefields in South Vietnam he dispatched the puppet army over 50,000 strong, the biggest one any satellite country had ever sent there, earlier than any other puppets did at that. Subsequently, the South Korean youth and middle-aged men are driven in shame as bullet shields for the U.S. imperialists and are dying a dog's death in South Vietnam.

This is an unpardonable criminal act which profanes the dignity of the Korean people and the brilliant history of our nation.

The puppet gangster Pak Jung Hi's dirty colors as traitor to the country and the nation have particularly been revealed to the full by the fact that he concluded the criminal "South Korea-Japan treaty" and ushered even the Japanese militarists, the sworn enemy of the Korean people, into South Korea and thus reduced it to a double colony of U.S. imperialism and Japanese militarism.

The Japanese militarists are the enemy who committed such an indelible crime as to impose all kinds of sufferings and misfortunes upon the Korean people during their 36-year-long occupation of our country; they are the enemy with whom the Korean people can never live under the same sky.

For all that, on his coming to "power" the traitor Pak Jung Hi jabbered that he would surely bring the "South Korea-Japan talks" to conclusion "even if he was condemned as another 'Li Wan Yong' (ringleader of the traitors who sold off Korea to Japanese imperialism in 1910—Ed.)," and carried on the treacherous negotiations with the Japanese militarists. Suppressing by the bayonet the powerful struggle of the South Korean people against the shackling "South Korea-Japan agreement," this rascal concluded it in 1965. It was an out-and-out treacherous agreement for it opened up a broad way for the Japanese militarists to reinvade South Korea.

Chilean Government's Just Measure

On November 17 the Chilean permanent representative to the UN officially announced that the Chilean government had decided to withdraw from the "United Nations Commission for the Unification and Rehabilitation of Korea," an aggressive tool of U.S. imperialism, according to press reports.

This decision adopted by the Chilean government is a very rightful act refusing the disgraceful role of covering up the U.S. imperialists' policy of aggression on Korea and is a just measure to defend the dignity and sovereignty of the nation, opposing the U.S. imperialists' policy of aggression and war.

The Korean people warmly welcome the recent just step of the Chilean government as a clear expression of active support for the revolutionary cause of the Korean people who are fighting to chase the U.S. imperialist aggressors out of South Korea and realize the country's independent peaceful unification.

The recent resolute measure taken by the Chilean government shows that the "UNCURK," an out-and-out aggressive tool of U.S. imperialism, is falling apart and constitutes a heavy blow to the U.S. imperialists who are on a rampage to justify their aggression on Korea by usurping the UN flag.

Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, said as follows:

"In Korea the United Nations has been used as an aggressive tool for the United States.

"The United Nations has no competence whatsoever to have a part in the Korean question." (Kim Il Sung, *Selected Works*, Vol. IV, p. 189.)

As is generally known to the world, the so-called "UNCURK" is an illegal aggressive tool which the U.S. imperialists rigged up in violation of the UN Charter to justify their aggressive acts against Korea.

The despicable nature of the "UNCURK" which is bribed by U.S. dollars and engrossed in fraudulence and swindle has fully been laid bare before the people of the whole world. Through the "annual report" it submits to the UN General Assembly every year, this gang of brazen-faced swindlers has all along covered up the U.S. imperialists' policy of aggression and war, while describing the occupation of South Korea by U.S. imperialism and its act of new war provocation as the act for "peace and security," the colonial rule of U.S. imperialism over South Korea as "protection" and "aid," the fascist puppet regime cooked up by U.S. imperialism as the "representative government" and the fascist repression of the South Korean people by U.S. imperialism and its lackeys, successive puppet rulers, as "democracy." The existence of the "UNCURK" is not only the obstacle to the country's unification of the Korean people but also a flagrant interference in their internal affairs and a grave challenge to their national sovereignty.

It is quite reasonable, therefore, that the Chilean government should have resolutely withdrawn from the aggressive organization and the socialist countries and many newly independent countries in Asia and Africa have submitted for debate a draft resolution on dissolving the "UNCURK," an aggressive tool of U.S. imperialism, together with the question of "driving out the U.S. army and all other foreign troops occupying South Korea under the UN flag," to the 25th UN General Assembly now in session.

As is widely known, the Islamic Republic of Pakistan declared that it would not participate in all work of this "commission" and stays out of it for several years on end.

All these facts clearly show that this aggressive tool of U.S. imperialism is disintegrating from within day after day and is enmeshed itself in an ever more isolated position.

With no frenzy can the U.S. imperialists prevent the disintegration of this "commission," their vicious aggressive tool denounced and repudiated by the people the world over.

Korea's unification must be realized by the Korean people themselves without any outside interference. To this end the U.S. imperialist aggressor army must be forced out of South Korea.

The U.S. imperialist aggressors must discontinue all acts of aggression and war perpetrated under the signboard of the UN and quit South Korea at once and the "UNCURK," the despicable aggressive tool of U.S. imperialism, be dissolved unconditionally and without delay.

Greetings to French Railway Workers' Congress

The Central Committee of the Trade Union of Transport and Port Workers of Korea sent a telegram to the National Federation of Railway Workers, Cadres and Technicians of France, greeting its congress.

In the telegram, the Central Committee of the Trade Union of Transport and Port Workers of Korea extended warm congratulations to the congress of the National Federation of Railway Workers, Cadres and Technicians of France, and, through it, to the entire members of the federation and sincerely wished great success to them in the struggle against imperialism headed by U.S. imperialism and monopoly capital and for the democratic rights and improvement of the working and living conditions, and to the congress in its work.

U.S. Imperialist Aggressors Throw Off the Mask

On November 13 Nixon, the warlike boss of U.S. imperialism, and his group declared that they would stop totally or postpone the so-called "reduction" of the U.S. imperialist aggressor army occupying South Korea.

According to foreign reports, they stated at a "foreign policy meeting" held in the State Department that the U.S. imperialist aggressive forces in South Korea would stay on to "observe defence commitments" to South Korea and there would be no "total withdrawal of the U.S. army."

This reveals the naked intention of the U.S. imperialists to further push forward preparations for a new aggressive war in Korea, casting aside even the mask of "reduction of the U.S. army" they had been wearing to divert elsewhere world attention.

While spreading the rumour as to the so-called "army reduction," the U.S. imperialist aggressors instigated the Pak Jung Hi puppet clique to stage an "objection to reduction" farce and eagerly beg for their continued occupation of South Korea in a crafty attempt to justify their occupation and mislead world public opinion. In the meantime, they feverishly speeded up preparations for another war in Korea behind its smokescreen.

They had with the South Korean puppet band such war confabs as the "third talks of South Korean and U.S. defence ministers" and "conference of South Korean and U.S. men of military affairs" and pushed forward the vicious scheme for war. The steps towards that end were big-scale increase in "military aid" to South Korea, expansion of aggressive armed forces and modernization of the puppet army.

War maniac Agnew who visited South Korea in August on the instructions of the war boss Nixon, promised the Pak Jung Hi puppet clique to give additional "military aid" and supply weapons of new type in large quantities and then busily made a round of front lines openly fanning up war hysteria.

The U.S. imperialists, while bringing in South Korea their air force, transferred many "F-4 Phantom" fighters and various other kinds of aircraft and operational materiel to the puppet army. They extended the "operation sphere" of their fighter group stationed in Okinawa, Japan, to South Korea. They stage almost every day large-scale war exercises mobilizing their own aggressive forces and the puppet army. It was announced that an "airlift operational exercise" called "leap exercise," the "biggest one in history," is scheduled in South Korea in March of the next year.

Owing to such ever-intensified war provocation manoeuvres, the danger of war has further increased in Korea. In this way the deceptive and criminal nature of the "reduction" advertised by the U.S. imperialists has been thoroughly exposed before the world. There come from the world peace-loving people louder voices denouncing the U.S. imperialists' war provocation manoeuvres and demanding that the U.S. imperialist aggressive army be withdrawn from South Korea unconditionally and completely.

At the current 25th session of the U.N. General Assembly the representatives of the socialist countries and many countries of Asia and Africa demand the immediate withdrawal of the U.S. imperialist aggressor army from South Korea and the dissolution of the "United Nations Commission for the Unification and Rehabilitation of Korea", the U.S. imperialists' tool for aggression, and many countries give support to this demand. Even among the people of the United States louder become the voices demanding the withdrawal of the U.S. imperialist aggressor army from South Korea.

Under this situation, the crafty U.S. imperialists invented such absurd excuses as "menace from the north" which never exists and "abuse of reduction" and pulled off even the mask of "reduction."

All this exposes thoroughly how crafty and vicious the "U.S. army reduction" propaganda is and clearly shows that it is the very U.S. imperialists who are war maniac and brazen-faced bandit engrossed in their scheme to unleash a new aggressive war in Korea. By such shameful acts the U.S. imperialists try to step up openly their war provocation manoeuvres in South Korea and, on the other hand, they are making desperate efforts to cover up their true colour as the chieftain of war and aggression.

But, with no plot can the U.S. imperialists cover up their vicious nature.

The great Leader of the 40 million Korean people Comrade Kim Il Sung said as follows:

"The situation has become aggravated to the extreme in Korea today and danger has engendered that a war may break out again at any moment not because we have committed any act of violating the territory of the United States of America or menacing its sovereignty and security, but because the U.S. imperialists have come to our country thousands of miles away from their country and intensified the policies of aggression and war against the Korean people." ("Answers to the Questions Raised by Foreign Correspondents," p. 90.)

The Korean people do not want war but never are afraid of it. They would annihilate the U.S. imperialists to the last man when they attack us with the force of arms.

U.S. imperialism should discontinue its cunning, deceptive schemes and unconditionally and completely get out of South Korea without delay.

Today the Pak Jung Hi puppet clique under the manipulation of U.S. imperialism are leaving no stones unturned to further broaden the scope of political, military and economic reaggression on South Korea by the Japanese militarists.

The Japanese militarists are manipulating the South Korean puppet regime through such tools of aggression as the "Japanese embassy in South Korea" and the "association of Japanese residents in South Korea" already set up in South Korea. Their military collusion with the South Korean puppet clique has reached really a reckless stage.

At present a "joint operation system" has been established between the Pak Jung Hi puppet clique and the Japanese militarists, and joint military exercises are frequently staged by them.

The traitor Pak Jung Hi is giving an active patronage and spurs to Japanese monopoly capital in its penetration into South Korea. The monopoly zaibatsu of Japanese militarism such as the "Mitsubishi," "Mitsui" and "Sumitomo", which subjected the Korean people to unbridled exploitation and pillage in the past, and hundreds of other monopoly concerns have found their way into South Korea without going through the formalities of asking for residential permission and got hold of the key branches of the economy; they have already monopolized there 100 per cent of vinyl chloride industry, 100 per cent of bonded processing industry, 80 per cent of ship building and repairing industry and 40 per cent of import trade.

To rouse the pro-Japanese sentiments among the South Korean people while placating the anti-Japanese ones the traitor Pak Jung Hi is forcing them to learn Japanese on one hand and, on the other, is introducing into South Korea such religious feelers for aggression as the "Sokagakkai" and "Tenriism."

All these facts glaringly show that the traitor Pak Jung Hi is none other than the dirtiest running dog, the never-to-be-pardoned and most vicious quisling who sold off South Korea to the U.S. and Japanese imperialists as the double colony.

The Korean people who know well the acts committed by arch-traitor Pak Jung Hi and his clique against the country and the nation will never fail to mete out a severe punishment to them.
